Smartphone Connectivity

## Experience Pioneer's 10.1" HD Touchscreen – The Ultimate In-Car Display

Our largest 10.1" big screen, designed for unparalleled visual clarity and ease of use. Features built-in Wi-Fi and supports both wireless and wired Apple CarPlay and Android Auto, ensuring seamless connectivity with your smartphone. Enjoy the flexibility of wired WebLink® Cast, while Bluetooth® connectivity keeps you hands-free.

### True-to-live Details with HD Resolution

Experience high-definition clarity and vibrant visuals with Pioneer's Direct-Bonding Panel design, ensuring minimum gap panel design for wide viewing angles.

### Designed with Every Detail in Mind - Illuminated Interactive Infotainment

Discover the innovative Luminous Bar feature, which intuitively syncs with the beats of your audio, video, and navigation prompts.

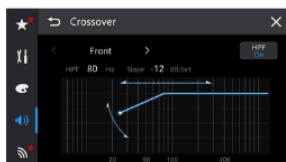

### One-Touch Access to Apple CarPlay / Android Auto

Experience a new dedicated Direct Key feature that allows you to open Apple CarPlay™ and Android Auto™ automatically with one-touch of a button.

### True Pioneer Sound Experience - New Advanced Sound Tuning with Detailed Optimization

#### Crossover Setting

#### Time Alignment

#### 13-Band GEQ

New Pioneer Advanced Sound Tuning options such as 'Speaker-Level Setting', 'Crossover Setting' and 'Time Alignment' for your high-fidelity sound customization. The 13-Band Graphic Equalizer adjustment allows you to adjust the frequency response of your audio system across 13 specific frequency bands.

### Greater Convenience with Pioneer Short-cut Key and PxLink App

Skip troublesome operational steps with easy short-cut keys for access to your EQ settings, WebLink® Cast, Radio Stations and more. New Pioneer PxLink offering more user-intuitive features for the seamless control of your Apple CarPlay™ and Android Auto™.
