Carbon & Mica  
Reinforced IMPP Cone

Specially Designed  
Diaphragm

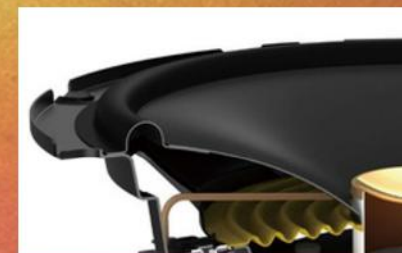

Specially designed New A-Series speakers for in-car having Better directivity characteristic with "OPEN & SMOOTH" concept. 16.5cm (Round) A Series 2-Way Component Speaker with fully covered mesh. Enhanced directivity characteristics with "OPEN & SMOOTH" sound concept and dedicated "crossover network" that realizes low crossover frequency. Pioneer's Multi-fit Adaptors for most ASEAN Vehicles (Plug & Play unique bracket for 16.5cm sizes)

**MAXIMUM POWER**  
**350W**

#### OPEN & SMOOTH CONCEPT

Open & smooth sound concept delivers open staging & smooth transition of driver response to provide the ultimate in-car sound.

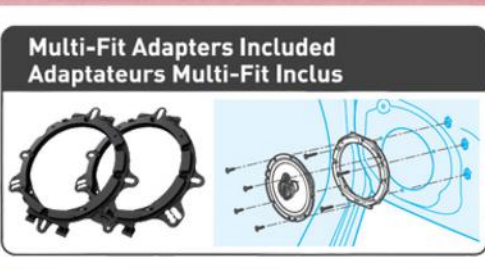

#### CARBON & MICA REINFORCED IMPP

The new, rigid Carbon & Mica Reinforced IMPP cone provides quicker response and higher sensitivity produces deep and precise bass sound. It also provides Clear mids & highs with low distortions.

#### FULL COVERED GRILLE

Fully covered mesh for better protection against physical damage, hence delivering reliability and high endurance

Pioneer Universal Adapter for installation in over 95% of ASEAN vehicles.

- ▶ Universal Adapter for Flexible Installation

# 320W

## TS-A1688S NEW

The TS-A1688S is a 4-way coaxial 16.5 cm speaker. Its carbon and mica reinforced woofer cone stands up to the harsh in-car environment while providing natural sounding tonal qualities with an OPEN & SMOOTH transition to the polyetherimide Tweeter. Easily Upgrade to High Performance. Pioneer's A-series sound design purposely matches the subwoofer and full-range loudspeakers to provide seamless and smooth sound characteristics with dynamic, high impact bass that lets you hear and feel the music.

- ▶ 350W MAX / 80W RMS
- ▶ 4-Way Coaxial Speaker
- ▶ Carbon & Mica Reinforced IMPP Cone
- ▶ Open & Smooth Sound Concept
- ▶ Universal Adapter for Flexible Installation

# 700W

## TS-A6988S

Newly developed 5 way speaker makes your sound richer with deep bass sound and clear high frequency sound. Looking for some powerful music in your car, these oval speakers with a deep basket is the perfect choice. Contributing to its impeccable sound reproduction is its new IMPP cone, elastic polymer surround, Long and symmetrical voice coil and the new developed magnetic circuit.

- ▶ Carbon & MICA Reinforced IMPP
- ▶ Optimized Motor Design
- ▶ Full covered grille
- ▶ Deep basket
- ▶ Elastic polymer surround
- ▶ Evolved Midrange
- ▶ Larger Magnet

# A

series

Get deeper and richer bass sound, in spite of shallow type design with installation flexibility.

It is the best choice for cars with space constraints. These oval shaped speakers featuring a shallow basket can be easily placed in your car and reproduce deeper and richer bass sound.

## TS-A6978S

# 650W

## TS-A6968S

# 450W

Carefully selected materials to improve bass response and high frequencies, whilst delivering Pioneer's Open & Smooth™ sound concept, all in an easy to install package. This speaker has rich bass notes, louder output and clear and balanced audio.

The design purposefully matches the subwoofer and full-range loud speakers to provide seamless and smooth sound characteristics with dynamic, high-impact bass that lets you hear and feel the music.

CAR  
AMPLIFIER

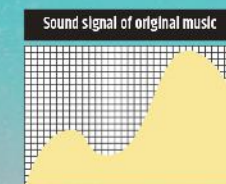

Class-D 4-Channel Bridgeable Amplifier with  
Wired Bass Boost Remote

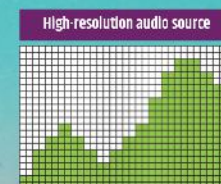

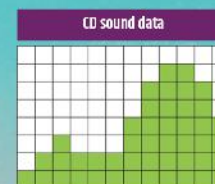

Pioneer's new extra-efficient Class-D digital amplifiers mark a dramatic improvement in power output capability, yet are 50% smaller than the current GM-Series Class-AB amplifiers. That makes them more versatile in terms of installation as well as performance.

Class FD <sup>Variable</sup>HPF <sup>Variable</sup>LPF **RCA IN/OUT** **SPEAKER INPUT** *Bass Boost Remote* **1ohm**

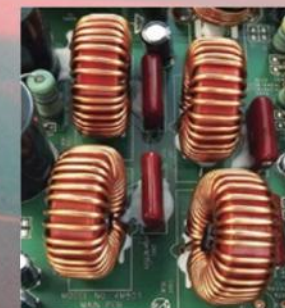

Hi-Res Audio employs music information more accurately than CD.  
CD specs (44.1 kHz/16-bit)  
Hi-Res Audio specs (96 kHz/24-bit)

## High Resolution Audio

Pioneer's new GM-DX874 Class-D digital amplifier is equipped with high quality sound components and tuning and is compatible with "Hi-Resolution" audio allowing simply the highest quality sound reproduction! The perfect partner to Pioneer's exclusive speaker range, TS-Z Series! \*The product with Hi-Res AUDIO logo is conformed to High-Resolution Audio standard defined by Japan Audio Society. The logo is used under license from Japan Audio Society.

## Higher Quality Parts

Audio Film Capacitors and low impedance coil are used for the output LC Filter to ensure excellent sound quality Audio Tuning based on the reproduction of the original audio source allows everyone to experience the difference in sound quality when connected

## High-Capacity Audio Source Capacitor

Pioneer original high capacity audio power source capacitor contributes to higher sound quality and stable power allotment event at high output.

Pioneer's new extra-efficient Class-D digital amplifiers mark a dramatic improvement in power output capability, yet are 50% smaller than the current GM-Series Class-AB amplifiers. That makes them more versatile in terms of installation as well as performance.

### Highly Reliable Circuit Design

To prevent circuit shutdown, Pioneer's new digital amplifier circuit "Protection Control System" senses its internal temperature and automatically moderates input level accordingly. Stable Durable Circuitry lessens the risk of high input power for the unit to achieve 1-ohm connection. This design enhances the flexibility to connect multiple subwoofers to a system

Class FD **Variable HPF** **Variable LPF** **Bass Boost Remote**

# GM-D8704

1,200W Max, Class-D 4-Channel  
 Bridgeable Amplifier with Wired Bass Boost Remote

- Class-FD 4-Channels
- 1,200W Max
- Variable LPF / HPF
- High-Efficient Class-D Amplifier
- Bass Boost Level Optimization

Class FD **Variable HPF** **Variable LPF** **RCA IN/OUT** **SPEAKER INPUT** **Bass Boost Remote**

# GM-D8701

1,600W Max, Class-D Mono Amplifier  
 with Wired Bass Boost Remote

- Class-D Mono
- 1,600W Max
- Variable LPF
- High-Efficient Class-D Amplifier
- Bass Boost Level Optimization

**Variable LPF** **RCA IN/OUT** **SPEAKER INPUT** **Bass Boost Remote**

Special Bass Boost

Immerse into a new realm of perfect audio pairing with the **GM-DC971** and **TS-W3004D4**. Elevate your audio experience as they unleash deeper bass and high loudness, perfectly complementing the Champion Series PRO lineup for an unparalleled level of bass performance.

## 2,400 Max Power Output

Both the GM-DC971 and TS-W3004D4 have been meticulously crafted to deliver exceptional performance with every detail considered. Pairing both Champion models together, it incorporates a High Performance Motor Assembly, Dual-Layer Reinforced Surround and Special Bass Boost adjustment that helps to deliver amplified loudness and deeper bass, a Optimized Enclosed Basket, and High-capacitance Capacitors to deliver outstanding bass reproduction and stunningly high power output of 2400W MAX. Every Champion models are designed with a unified Honeycomb Structure that exudes toughness and high durability.
